It is the intention of the Paterson Housing Authority's Comprehensive Plan to address the complex issues of drug related crime by controlling drug trafficking and drug use while improving the quality of the environment in the Public Housing Developments. This can be achieved through the continued application of programs that promote self sufficiency, increase resident awareness, remove criminal elements from the Authority's rent rolls, and protect and educate youth against the evils of drugs. By gaining control over high rise buildings, maintaining a police presence, providing drug counseling to youth and their families and through youth remedial education and structured recreational programs that provide support and alternatives to the drug environment, the quality of the housing environment can be improved and the ability of residents to live in safety will be restored. A resident survey will be conducted annually for the five year term of the grant, to redetermine the need for the program activities. Outcomes of the plan's goals and objectives will also be measured through this survey instrument.
